Preprinted blank DVD's and CDs with three choices of printing, black text on a white background, colored text on a white background, and near photo quality full-color on a white background. Our standard disks are prints to the center on both DVDs and CDs, on special requests we can order disks with silver background. When a silver background is use, it gives the image a slightly transparent appearance which is unique. We can also order disks with larger diameter centers if that better suited to your needs.

#### Disks are printed with plain black text and shipped on a spindle
